Hundreds of men were set to work to repair the damage and every possible effort was directed toward having the arsenal, the landing, the stage and the ap-

The French Northern squadron, consisting of twenty-one vessels, and including the Charles Martel, first-class battleship; the Hoche, battleship, with Vice Admiral Regnauet de Premesnil on board: the Jean Bart, the Descartes, the Jemmapes and fifteen cruisers and torpedo boats, left the harbor at 8 o'clock in single file, a gale of wind blowing. Before the warships were outside the harbor they were almost completely hidden from view by a heavy rain storm, which did further damage to the decorations ashore. The gale also increased in force, and a heavy sea began to run. At noon the news was signaled that the Russian imperial yacht, Pole Star, had joined the French squadron and was cross-
